

LifeVantage®

CANINE HEALTH

DESCRIPTION:

LifeVantage's laser focus on the fight against oxidative stress has benefitted humans the world over. Now, we have developed Canine Health, a daily supplement specifically formulated for dogs. Using Nrf2 activating ingredients, collagen and omega-3 fatty acids, it is specifically formulated to:

- ▶ Reduce oxidative stress
- ▶ Support brain, heart and eye functions
- ▶ Support joint function, mobility and flexibility
- ▶ Support cognitive function

Reducing oxidative stress in dogs may reduce many of the disorders associated with aging in canines – all common problems that profoundly affect their quality of life. These symptoms include disorientation, decreased social interaction, loss of prior house-training, sleep disturbance and decreased mobility.

VALIDATION:

Animal Health Consultants, a premier third-party animal health testing company, has conducted a double-blind, placebo-controlled clinical study to validate that Canine Health reduces oxidative stress in dogs. The results of the study indicated a reduction in oxidative stress, improvement in mobility and improved cognitive function. LifeVantage will continue to conduct additional clinical studies to further support our findings and the efficacy of Canine Health.

DIRECTIONS FOR DAILY TABLET USE:

Dosage is based on weight
Toy 4-10 lbs. ½ tablet
Small 11-29 lbs. 1 tablet
Medium 30-69 lbs. 2 tablets
Large 70-109 lbs. 3 tablets
Giant 110+ lbs. 4 Tablets

CAUTIONS:

Safe use in pregnant animals or animals intended for breeding has not been proven. If animal's condition worsens or does not improve, stop product administration and consult your veterinarian.

PRODUCT INGREDIENTS:

Active Ingredients per 1.85 gram tablet:
